DuraSoak® Series
General Purpose Heavy-Duty Pads

Absorbs up to 23.5 gallons of oil per bale *

- Made with 65% recycled shop towel fibers
- Meltblown-spunbond coverstock on both sides of the absorbent core creates very durable sorbent pads
- Absorbs both oil and water as well as grease, transmission fluid, hydraulic fluid, diesel fuel, coolants and many other fluids
- Made with minimal oil derivatives allowing for stable pricing unlike meltblown sorbent pads that can have very volatile pricing because the raw material costs involved in making meltblown polypropylene pads are tied to the price of oil

Class A fire retardant when pad is dry (lab tested per ASTM E84)
Ash content is 0.75% per ASTM D240
13,380 BTU/lb per ASTM D240
U.S. Patent No. 8, 118, 117
Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.

Per Pad Comparison
Twice as absorbent as SPC*** MRO100 & over 85% more absorbent than New Pig** MAT203

1 pad of DuraSoak® 23100 absorbs 0.45* gallons of SAE 30 motor oil vs. 1 pad of the SPC*** MRO100 adsorbs 0.22* gallons of SAE 30 motor oil and 1 pad of New Pig** MAT203 which adsorbs .241 gallons of SAE motor oil

**General Purpose Absorbents**

Sellars General Purpose TOOLBOX® DuraSoak® pads not only provide more absorbency (see charts on individual product pages) than other popular competitive meltbown sorbents, they're made with recycled fibers (see chart) to create greater price stability. And with our recycled fibers being made from our internal excess wiper material, DuraSoak® provides amazing product consistency.
