## Heavy-Duty Barrel Top Absorbent Pads

Made in the USA

- Made with 70% recycled cellulose fibers
- 22" in diameter so they will fit standard 55 gallon drums and help keep liquids from getting to floor
- EverSoak® Heavy-Duty Barrel Top Absorbent Pads soak up both oil and water as well as grease, transmission fluid, hydraulic fluid, diesel fuel, coolants and many other fluids
- Absorbs as much as 2 of the leading competitors' heavy-weight meltblown pads (lab tested per EDANA 10.4-02)
- Ash content is 1.8% per ASTM D482
- 9,611 BTU/lb ASTM D5468
- Made with minimal oil derivatives allowing for stable pricing
- Class A fire retardant when pad is dry (lab tested per ASTM E84)
- Helps you comply with 29 CFR 1910.22(a)(2)

*Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.*

## General Purpose Absorbents

EverSoak® is a truly innovative green sorbent product with a general purpose line that is made with 70% recycled fibers. EverSoak® is up to twice as absorbent as the leading competitors' meltblown sorbents, according to independent lab tests, which helps reduce usage.

Sellars uses recycled cellulose fibers to produce the General Purpose EverSoak® products. Unlike any other sorbent manufacturer, Sellars is also a manufacturer of a full line of very popular DRC shop towels. This gives us a strategic advantage because we are able to use the waste from producing our high quality industrial wipers as the major raw material source for our general purpose EverSoak® products. Since the major source of raw material is generated internally, we are not forced to purchase random and inconsistent waste material on the open market for our general purpose sorbent products.

 **Made in the U.S.A.**
