

Orange Spill Berm

- Standard 10 foot sections can be cut to various lengths to meet custom needs.
- Unique, urethane material “weeps” into small cracks and crevices to seal off liquid flow.
- Spill Berm is non-absorbing and is easily cleaned for repeated use.
- Applications include: Spill Response • Temporary Secondary Containment • Sealing Off of Doorways During Washdown Operations.
- Flexible Ultra-Spill Berm will bend and turn to form to almost any shape while temporarily “bonding” to any smooth surface.
- Helps comply with NPDES and SPCC.

Due to the nature of softer urethane, the physical properties of these products may change with exposure to certain environmental conditions like temperature, humidity and UV radiation. Regular inspection of the stored product should be done to ensure it is in a usable state.

Made in the U.S.A.

Spill Containment

Spills Happen.
Be Prepared.

Decide what shape or configuration is required and use optional Connectors and 90° Corners to complete the area.

Spill Berm Connectors – Part Number 92101

Spill Berm Corners – Part Number 92102

Orange Spill Berm

Product Number:	92100
